**Subject:** RE: Satellite 3 C-141.docx

Good morning Mr. Rosine:

Notes:

- NMOCD databases indicate State surface and minerals ownerships. BLM and NMSLO can verify.
- Please remember to include Christina Hernandez, the other Environmental Specialist in NMOCD Hobbs's office.

Please be advised that

1. The initial portion of the C-141 form does not include the calculations to determine the release volume. Please submit measurements in volume estimation; such as dimensions (L X W X depth of impact), soil parameters (porosity, texture, bulk density, soil moisture), meter readings, waste manifests, etc.
2. Dated, geo-referenced photo documentation for verification that the initial response activities have been employed to contain the release is requested.
3. Per 19.15.29.10 NMAC, a major release necessitates immediate notification to NMOCD Environmental Bureau chief, in addition to the appropriate District office. Please direct all other release notifications- verbal via voicemail or email- to Environmental Specialists in the respective District offices.
4. Per 19.15.29.13 NMAC, regulations of corresponding agencies supersede NMOCD's.

The 1RP for this incident is

<b>5254</b>	11/5/2018	A	Conoco Phillips	EVGSAU Satellite 3		17S-35E-32J	10/24/2018
-------------	-----------	---	-----------------	--------------------	--	-------------	------------

Please remember to include this 1RP identifier to all communications. Delineate and remediate per regulation. Mind the timelines for submittal of requisite information.

Please be advised that NMOCD recommends a completed site characterization/delineation report be reviewed or approved by NMOCD BEFORE any significant remediation work towards closure.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)  
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

---
