Olivia,

Here is the initial C-141 submitted for the release that occurred at the GC Federal #27 Tank Battery. All of the fluids were contained inside the lined facility. COG inspected the liner and found some damage to the liner. Based on the findings, COG collected soil samples underneath the liner for evaluation. We are in the process of submitting a report for the site. Can you assign a RP number for the release? Let me know if you need additional, information, thanks
