Ms. Haskell:

NMOCD will grant closure to the remediated area for 1RP-4883. The section identified for deferral to be addressed at time of abandonment, retrofit, or inactivity is also granted. Please note that as 1RP-4883 will still be opened due to the area deferred for remediation, a final C-141 will not be necessary.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

NMSLO approves of the report as written. 1RP-4883 is deferred until the site is decommissioned or the area can be accessed safely. Concurrence from NMOCD is also required.

Please find attached the *Remediation Summary and Risk-Based Site Closure Request* and Final C-141 that has been prepared for COG's Phillips State #001. The Site is located in Unit Letter "O", Section 17, Township 21 South, Range 35 East on property administered by the State Land Office. If you have any questions or need any additional information, please feel free to contact Rebecca Haskell or myself by phone or email. Thanks.

Respectfully,
