Good morning Mr. Ruppert:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-5173** closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

BLM approval required. NMSLO may have additional concerns and stipulations.

Thanks,

Olivia Yu
Environmental Specialist

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mr. Ruppert:

The C-141 form is visible on my end. However, the form needs to be actually signed for

closure. To facilitate resolution, please mail the completed, signed C-141 form to NMOCD and BLM, respective addresses found online.

Thanks,
Olivia
