Mr. Hitchcock,

NMOCDD is in concurrence with NMSLO. Release characterization will be considered complete for 1RP-4920; however, the closure report will not be accepted until remediation, restoration, and reclamation are conducted to NMSLO approval for the impacted pasture. Please remember to submit dated and georeferenced photo documentation.

Thanks,
Olivia

NMSLO will not issue closure until reclamation is completed. All imported topsoil should be similar soil type and un-impacted. NMOCDD may have additional concerns.
