**Date:** Friday, May 26, 2017 10:13:46 AM

---

Thank you for sending in this plan, we will review it presently.  
A question and comment/reminder-

1) It is dated from March, any reason it is being sent now?

Comment- please note that the Chevron Trend map is a grey source of information and considered only partially reliable. Depth to groundwater are preferred from an official source such as the USGS, OSE or prior OCD groundwater projects.

Please let me know if you have any questions.

一期一会

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
