Subject: RE: OXY - Plains Knight #1 TB (1RP-4555) - Delineation Workplan
Date: Wednesday, August 2, 2017 2:17:00 PM

Mr. Brunson:

While delineation is not considered complete, given the timeline between release (December 19, 2016) and initial soil sample (January 19, 2017) date, NMOCD will approve of the proposed remediation for 1RP-4555 with several conditions:

1. For the area demarcated as SP1 and SP2, bottom and sidewall confirmatory samples for the proposed 1.5 ft. excavation depth. A minimum of 3 bottom and 5 sidewall samples to complete horizontal delineation.
2. For the area demarcated as SP3, excavation to 2 ft. bgs would be sufficient. Collect minimum of 1 bottom and 3 sidewalls for confirmatory laboratory samples.
3. Demarcate confirmatory bottom and sidewall sample locations and depths of excavation on a properly scaled map.
4. Use Method 8015 extended for TPH (GRO, DRO, and MRO).

Please confirm.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: OXY - Plains Knight #1 TB (1RP-4555) - Delineation Workplan

Olivia,

Please find the attached Delineation Workplan and remediation proposal for the OXY Plains Knight #1 TB (1RP-4555). OXY is requesting that you review this plan and is looking forward to the OCD's.

If you have any questions, please let me know.

Thanks, Cliff
