Dear Mr. Brunson:

Please address these concerns for 1RP-4596.

1. The provided map suggests that the liner will be emplaced within a 15 ft. radius of the wellhead. Is this true? If not, please redraw and rescale the Google earth image.
2. Discrete sidewall confirmation samples (minimum 4 sample locations) are required of the proposed 4 ft. excavated area using Method 8015 extended (GRO, DRO, and MRO) to complete horizontal delineation.

Please confirm.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Olivia and Amber,

Please find the attached Delineation Workplan and remediation proposal for the OXY Red Tank 30 State #002 (1RP-4596). OXY is requesting that you review this plan and is looking forward to the OCD's and SLO's approval.

If you have any questions, please let me know.

Thanks, Cliff
