Subject: Re: [EXTERNAL] Cimarex West Grama Ridge 6 Federal #4H Closure Request (1RP-4692)  
Date: Thursday, May 3, 2018 4:41:23 PM

---

Since the elevated chlorides in T1 at 2'bgs are near the unit and on location, BLM will **accept** your closure request. When the site is abandoned, that material will be removed and should not be an issue.

**NOTE: LPC Timing Stipulations are in effect - from March 1st through June 15th. Please plan remedial activities accordingly. Check for African Rue...treat (before it gets out of control).**

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. **In such an event a site does not achieve successful restoration, or future issues with contaminants are encountered, the operator will be asked to address these issues until they are fully mitigated and the location is successfully reclaimed.** In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
