---

Ms. Gonzales:

Laboratory analyses of sidewall/edge samples are required for confirmation of complete remediation for 1RP-4845.

Thanks,  
Olivia

Ms. Yu,

The area is currently excavated to 1.0' below surface and has not been backfilled, pending your approval. No sidewall samples were collected as the surface footprint was visibly well defined.

Let me know if you have any other questions or concerns.

Thank you,

***Clair Gonzales***

**Subject:** RE: Saber Oil & Gas - Cochise 2 State 4 Closure Request (1RP-4845)

Ms. Gonzales:

Several clarifications to the closure report for 1RP-4845:

- Currently, the entire release area has been excavated down to 1 ft. bgs?
- Were sidewall samples taken for confirmation?

Please be advised that Mark Naranjo will be the correspondent from NMSLO for like approvals.

Thanks,  
Olivia
