Date: Friday, November 16, 2018 9:06:00 AM

Good morning Mr. Runnels:

Any smartphone with the appropriate app can record the date and GPS coordinates.

For closure, revegetation is necessary, for verification of the information written on pg. 5 of the closure report dated February 2018. I believe BLM regulations also requires revegetation.

Thanks,
Olivia

Ms. Yu,

I'm afraid I may not understand the request. Are you asking for us to go out and take pictures of a site that was reclaimed over a year and a half ago? In addition, we must procure a camera that provides GPS coordinates specifically for this site?

Sincerely,

Robbie Runnels
Etech Environmental

Mr. Runnels:

Thank you for your patience. In the interest of resolution, NMOCD would agree to closure of Area 1 under 1RP-4250 on the condition that current georeferenced and dated photos of

the release area are provided. BLM approval required. BLM may have additional concerns or stipulations.

Thanks,
Olivia

Ms. Yu,

Attached is the Soil Bore Map with coordinates. The driller used coordinates from the location. I have also attached our field notes. Please let me know if you need anything else.

Robbie

Mr. Runnels:

Please address these concerns regarding the closure report for 1RP-4250, Area 1.

1. Is there field titration chloride data from depths above 90 ft. bgs for SB-1, above 110 ft. bgs for SB-2, and above 130 ft. bgs for SB-3? The chloride plume needs to be defined, not just the depth at which permissible chloride level was obtained.
2. Soil bore logs are incomplete. The same GPS coordinates were written for SB1 to SB-3. Provide the actual locations of the soil bores. Where these soil bores over the same locations as Floor 1-3 locations, respectively?
3. Please verify that the soil lithology from 2- 120 ft. is consistently the same. Note that 'stringers of gypsum' is not a soil morphology term.

Thanks,

Olivia

Ms. Yu,

Attached is the Closure Report for the aforementioned site. The report is for Area 1. The closure reports for the subsequent other three areas will be submitted in the near future.

Please let me know if you have any questions or comments.

Thank you,

Robbie Runnels
