---

Ms. Haskell:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **nOY1815251344** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)  
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

---

**Subject:** [External] RE: Grass Fire

Ms. Haskell:

The NMOCD inspector indicated that he checked the wind direction (17-24 mph from the South) with the flare to the Northeast corner of the location. Photo documentation indicates that there were no other source of ignition. Although the incident may not be a reportable release, a C-141 will still need to be submitted for the fire-impacted area.

Thanks,  
Olivia

**Subject:** RE: Grass Fire

Ms. Yu,

After talking with you this morning I was given these photos by production and it appears that the fire is moving toward our facility rather than away from it. Also there is no indication of any fluid released under the flare. We don't believe our facility was the cause of the fire in this case. Please review the photos and let me know your thoughts.

Thank You,

Becky Haskell

Ms. Haskell:

Do you have additional information regarding the incident at this location? I have received a lined facility release associated to this location a couple of weeks ago.

Thanks,  
Olivia

**Subject:** Grass Fire

Kanicia,

Olivia Yu is out of the office this week so I am following up on an event reported to me on Friday, May 18, 2018. A grass fire that appears to have start by a flare located on Stratojet 31 State Com #3H, 30-025-40103. We have made inspection of the site to confirm ignition source.

Please provide a C-141 for the event. ( If a C-141 has already been submitted please disregard this message.)
