Initial Response				
The responsible	party must undertake the following actions immediately unless the	y could create a safety hazard that would result in injury		
☐ The source of the rele	lease has been stopped.			
☐ The impacted area ha	as been secured to protect human health and the environment	onment.		
Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices.

regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws				
and/or regulations.	T'41
