13 Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

In response to Written Order 12KSB191 dated April 9, 2012, H.L. Brown Operating, L.L.C. ("HLB") has requested the required testing equipment from numerous third party service providers, but has been told that equipment is in use and not presently available.

As indicated in the attached letter dated June 5, 2012 from Tom Duncan, Hobbs Office of Metering and Testing Services, HLB is on the "waiting list" for the equipment and tests. HLB will provide notice to BLM upon notification of availability of equipment.

In the interim, to the extent BLM seeks immediate testing, the well at issue produces to a dedicated tank battery. A third party can test the well using equipment presently existing at the well.

**DENIED - for the use of existing well equipment
60 day extension ending August 17, 2012
for third party testing using independent well
testing equipment.**

14. I hereby certify that the foregoing is true and correct Name (Printed/Typed)

METERING & TESTING SERVICES, INC.

SOPHISTICATED TOOLS TO PRODUCE WELLS MORE EFFICIENTLY

Well Checkers for the Permian Basin

P O Box 60309 Midland, TX 79711-0309 / 11300 W I-20 E Odessa, TX 79765 (432)563-1445 Fax: 432-563-0120

To: Mr. C. Wheeler
HL Brown Operating

At this point in time Metering & Testing Services does not have any available test equipment (Low pressure 3 phase test units) for rental. HL Brown Operating has inquired about testing wells in Roosevelt county NM, and has been put on a list for next available test equipment. However, due to the lack of availability of equipment Metering & Testing cannot give a time frame for this to happen.

Tom Duncan, Metering and Testing Services
