OCD Hobbs

FORM APPROVED  
OMB No. 1004-0135  
Expires July 31, 1996

**SUNDRY NOTICES AND REPORTS ON WELLS**  
*Do not use this form for proposals to drill or reenter an abandoned well. Use Form 3160-3 (APD) for such proposals.*

**SUBMIT IN TRIPLICATE – Other instructions on reverse side**

1. Type of Well

☒ Oil Well ☐ Gas Well ☐ Other

HOBBS OCD

2. Name of Operator

DC ENERGY, LLC.

JUN 20 2014

3a. Address c/o Mike Pippin LLC

3104 N. Sullivan, Farmington, NM 87401

3b. Phone No. (include area code)

505-327-4575

4. Location of Well (Footage, Sec., T., R., M., or Survey Description)

785' FNL & 1980' FWL Unit C

Sec. 33, T25S, R37E

5. Lease Serial No.

LC-054667

6. If Indian, Allottee or Tribe Name

7. If Unit or CA/Agreement, Name and/or No.

8. Well Name and No.

CROSBY DEEP #4

3

30-025-25985

10. Field and Pool, or Exploratory Area

Upper Fusselman Pool (75520)

AND

Lea County, New Mexico

13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well currently has an approved NOI sundry to P&A. As we discussed in the conference call on 6/3/14, DC ENERGY, LLC is in the process of selling the company. The potential buyers have asked DC ENERGY, LLC to stop the P&A process on this well because they wish to utilize it for a SWD well. Since DC ENERGY, LLC believes this to be a strong selling point, we would now like to recend the P&A sundry & hold the well for the new owner to convert it to a SWD well.

**Crosby Deep 4  
30-025-25985  
DC Energy, LLC  
June 18, 2014  
Reasons for Denial**

**The request to rescind the NOI for P&A is denied. The operator will be given an extension on the plugging procedure. This well shall be plugged by October 1, 2014.**

**Information used for the denial follows:**

**Crosby Deep 2, which is on Fee surface with Fee minerals, was injecting into at least the Fusselman. Previous owner pulled out of the hole and reported that they could only go back into approximately 7400'. The top of the Fusselman injection zone is 8870'. The former owner requested a shallower zone (San Andres), but due to the inability to plug the lower zone and the problems with the Crosby Deep 1, the request was not approved. These two wells ( 2 and 1) are less than one half mile apart. Therefore, the Crosby Deep 2 would have to be repaired or plugged properly for any possible injection to occur in the Crosby Deep 4 since the wells are only 1,314' apart.. At this point, the BLM would object to a proposal to convert the Crosby Deep 4 to an injector without verification that the Crosby Deep 2 was properly repaired or plugged. This well if repaired could only inject into the Fusselman.**

**Crosby Deep 1 was not able to be plugged properly and as a result of that plugging operation, the BLM stated that they would object to any well proposed for injection between the top of the Salt and the top of the Fusselman within one half mile of the Crosby Deep 1. This well is only 1,114' away from the Crosby Deep 4. Therefore, only the Fusselman formation would be the possible injection zone and this will not change due to the plugging operations on the Crosby Deep 1. The Crosby Deep 1 will not be approved for a re-entry at any time due to the plugging difficulties.**
