13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We ran and cemented our 11-3/4" casing to surface with no issues but when going to set the slips we were unable to get them to set in the A-section of the wellhead. After discussions with Wesley Ingram with the BLM we were given a verbal approval at 2000 hours New Mexico time on July 25th to cut off the original A-section, weld a new 11-3/4" A-section onto the intermediate casing and monitor the annulus by doing the following:

?Operator needs to weld a steel plate across the open annulus, install a nipple, with a 2" ball valve. A gauge should be installed in the downstream end of the valve. While drilling, the pressure shall be checked and recorded every eight hours. When the well actually becomes a producer, operator shall not only have a gauge, but shall connect it to either a WellKeeper or Scada system.?

The steel plate has been welded on with required equipment and we are monitoring the pressure every 8 hours in the drilling reports.

14. I hereby certify that the foregoing is true and correct. <b>Electronic Submission #255062 verified by the BLM Well Information System For OCCIDENTAL PERMIAN LP, sent to the Hobbs Committed to AFMSS for processing by LINDA JIMENEZ on 10/09/2014 (15LJ0099SE)</b>
