13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

COG Respectfully requests authorization to construct two buried 8-inch steel gas pipelines to tie in the CTB No. 2 (N) and CTB No. 3 (O) to the ETC buried gas pipeline. The buried pipelines on federal lands will be 40 ft.(0.008 mile) in length and 30 ft. in width for a disturbance of 0.028 acres each. The buried pipelines will be in section 25, T. 25S., R. 33E. This will be within the existing disturbance of the CTB pads and three pipeline rights-of-ways that are side by side. No new disturbance will be encountered. It should also be not that Bob Ballard gave a verbal to go ahead and lay the two small tie-ins while the ditch was open.

This should be covered in the Archaeological survey for the pad and three pipeline rights-of-ways, however, a consultation with the Archaeology specialist will be conducted.
