MOC has received an approved APD for the above captioned well. This APD was approved for 17 1/2" hole with 13 5/8" csg set @ 1750'. After further geological review, we request a change of casing setting depth to 500'. We will drill out below 13 5/8" shoe with FW mud to protect any possible deep water sands above the Rustler formation. We will then change out mud system to BW and continue drilling to intermediate casing setting depth of 3500'.

If you have any questions, please call Micky Young @ 575-393-5905.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines , a general permit or an (attached) alternative OCD-approved plan .
