17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Drilled 7-7/8" hole to total depth of 9900' on 3/30/69. Ran drill stem test of Rough "C" Zone with test interval from 9769-9824. Ran Schlumberger Gamma Ray Sonic and Laterolog. Ran 9900' 5-1/2", 17#, J-55 & N-80 casing and cemented with 250 sacks Class "C" Diamix with final pressure of 1800 psig. Cement job completed at 9:15 PM on 3/31/69. Ran temperature survey and found top cement outside 5-1/2" at 8500. Removed Hydril and blowout preventers and landed casing with 40,000 lb. on bottom of hole. Installed tubing head and tested to 3000 psi. Rigged up well service unit on 4/2/69, ran bit and scraper and cleaned out to top cement plugs at 9834'. Displaced water in hole with oil. Perforated Rough "C" Zone 9792-97 with 4 JSPP, set Baker Model "B" packer at 9780, and ran 2-7/8" N-80 and J-55 tubing and set in packer. Now waiting on hydraulic pump installation prior to conducting potential on well.

18. I hereby certify that the foregoing is true and correct

ACTING DISTRICT ENGINEER

## Instructions

**General:** This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

**Item 4:** If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

**Item 5:** Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.
