

## NEW MEXICO OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

## MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Place

Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Gulf Oil Corporation NMI State Well No. 1 in SE SE  
Company or Operator Lease  
of Sec. 22, T. 12 S, R. 33 E, N. M. P. M., Undesignated Field.  
Lea County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Total Depth of the well is 10,558'. Original plans called for setting 7" OD casing at TD, and producing from the Devonian formation through perforations. Since the Devonian was found to be non-productive, it is now planned to thoroughly test other possible producing horizons from 8470' to 9370'. We plan to put 50 sax of cement on bottom (at TD) and then run 7" OD casing to 9450' and cement with 350 sax of cement. Casing will be equipped with scratchers and centralizers through possible producing zones. These zones will then be perforated and tested.
