☐ Yes ☐ No If answer is "yes" type of consolidation \_\_\_\_\_

If answer is "no" list the owners and tract descriptions which have actually been consolidated (Use reverse side of this form if necessary.) \_\_\_\_\_

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

Note: This well was staked March 3, 1978, to be 1980 feet from the south and west lines. By using the Tannehill witness marker and mistakenly identifying it as the Tannehill triangulation marker, the location was actually staked on the ground at 300 feet from the south line and 2150 feet from the west line. The mistaken identity was discovered and another well numbered No. 1X was staked at 1980 feet from the south and 1980 feet from the west line on March 27, 1978.
