Attention Mr. Jerry Sexton

Dear Mr. Sexton:

The attached Form C-103 to P & A our Taylor No. 1 well is being resubmitted for approval along with a subsequent report describing work done per the January 9, 1984 approved C-103. It was originally proposed to whipstock the well; however, the whipstock was unsuccessful and the well was temporarily abandoned. Also, attached is a copy of the present wellbore showing the squeezed perforations, PBTD of 3882' and the cement retainer set at 3644'.

This additional information should clarify the reasons stated in your letter of January 3, 1985 why the proposal to P & A was originally disapproved.

Yours very truly,

A handwritten signature in cursive script, reading "David G. Smylie".
