OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Gentlemen:

You are hereby notified that it is our intention to commence the (Drilling) (Recompletion) of a well to be known as

The Atlantic Refining Company

(Company or Operator)

State "T"

(Lease)

Well No. 6

7

(Unit)

The well is

located 2310 feet from the north line and 2310 feet from the

west

line of Section 2, T 15-S, R 37-E, NMPM.

(GIVE LOCATION FROM SECTION LINE)

Denton (Wolfcamp)

Pool, Lee

County

If State Land the Oil and Gas Lease is No. B-9774

If patented land the owner is

Address

We propose to drill well with drilling equipment as follows: rotary tools from surface to total depth of 9500 feet

The status of plugging bond is Bond no. 44120 (General Casualty Co. of America) in effect.

Drilling Contractor Parker Drilling Co.

We intend to complete this well in the Wolfcamp

formation at an approximate depth of 9500 feet.

CASING PROGRAM

We propose to use the following strings of Casing and to cement them as indicated:

Size of Hole	Size of Casing	Weight per Foot	New or Second Hand	Depth	Sacks Cement
17 1/2"	13 3/8"	48#	New	350 feet	Circulate
12 1/2"	9 5/8"	34 & 40#	"	4650 "	3,000 sack
8 3/4"	7"	23 & 24#	"	9500 "	650 sack

If changes in the above plans become advisable we will notify you immediately.

ADDITIONAL INFORMATION (If recompleton give full details of proposed plan of work.)

Mr. J. E. Hellinghausen
The Atlantic Refining Company
Box 871
Midland, Texas

Dear Mr. Hellinghausen:

We are returning unapproved Form C-101, Notice of Intention to Drill State T #6, 2310 ft. from the North line and 2310 ft. from the West line Sec. 2 T 15S R37E Lea County, New Mexico. According to my calculations this location is unorthodox by a matter of 13.49 feet.

Section 2 is against a correction line and land office survey plat sheets indicate the west side of Section 2 to have a length of 79.66 chains or 5257.56 feet. The east line has 79.97 chains or 5278.02 feet. I am calculating the North South length of Section 2 at a point 2310 from the west line. A fraction of $2310/5280$ times the difference in length between the east and west lines gives 8.95' which added to the length of the west line gives a computed length of Section 2 at a point 2310 from the west line of 5266.51. This correction is made in the lots along the north side, leaving the distance from the north section line to the south line of SE NW 1/4 1/4 section at 2626.51 feet at a point 2310' east of the west line, 2626.51 feet minus 2310 leaves 316.51 as the distance of location from the south line of 40 acre unit.

Section C of Rule 104 precludes the approval of locations closer than 330' to the edge of the 40 acre units on which they are to be drilled. If you will move this location 14 feet north and show it as 2296 feet from the north line, it will comply with Rule 104 and will be approved.

Yours very truly,

R. S. Elynn
Engineer-District 1
