Mr. Lynn Durham  
Box 204  
Midland, Texas

Dear Mr. Durham:

I received Form C-103, Report of Result of Plugging Well #1 Section 36, Township 16S, Range 37E, in which you state the hole was filled to surface with mud and cement on top and pits and cellar filled.

On checking the location I find the cellar has not been filled and location has not been cleared off. The Rules and Regulations of the Commission also require that you set a steel marker in cement, 4" in diameter to extend 4' above surface. This has not been done!

I can not approve the Form C-103 until the work has been done.

Very truly yours,

Oil Conservation Commission

There are three different types of "bonds" that are used in the construction industry. The first type is a "bond" that is used to guarantee the performance of a contractor. The second type is a "bond" that is used to guarantee the payment of a subcontractor. The third type is a "bond" that is used to guarantee the completion of a project.

the 1990s, the number of people in the world who are illiterate has declined by 100 million. The number of people who are illiterate in the United States is 12 million. The number of people who are illiterate in the United Kingdom is 10 million. The number of people who are illiterate in the United States is 12 million. The number of people who are illiterate in the United Kingdom is 10 million.
