17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Tri-Service Drilling Company assumed operations on the T. P. State No. 1 from the Signal Oil and Gas Company effective 12:00 midnight 7/5/68. The well was plugged by Signal Oil and Gas Company at the following intervals: 13,128'-13,028', 12,321'-12,221', 11,170'-11,070', 8,247'-8,147', 6,410'-6,310' and 4,978'-4,878'; but was not formally plugged through Form C-103. Signal Oil and Gas Company assumed operations from J. C. Williamson on 2/29/68 and whipstocked the well to a location 596.5' east and 181.5' north of the surface location and encountered a small show at a total depth of 13,014'. We plan to re-enter the well and set a whipstock at approximately 11,570' and deviate the hole to a point approximately 300' east and 300' south of the surface location in an attempt to gain structural position and affect a commercial completion. This proposed program has been discussed with Mr. J. D. Ramey of the Hobbs Commission office.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
