

NEW MEXICO STATE LAND OFFICE
OFFICE OF THE STATE GEOLOGIST
SANTA FE, NEW MEXICO

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the State Geologist or proper Oil and Gas Inspector at least five days before the work specified is to begin. A copy will be returned to the sender on which will be given the approval with any modifications considered advisable or the rejection by the State Geologist or Oil and Gas Inspector of the plan submitted. The plan as approved should be followed and work should not begin until approval is obtained.

Indicate nature of notice by checking below:

PLACE

DATE

Mr. E. H. Vells State Geologist,
Santa Fe, N. Mex.

Following is a notice of intention to do certain work as described below at the

Skelly Oil Company B. H. Turner Well No. 1 in E/2 of NW/4
COMPANY OR OPERATOR LEASE
 of Sec. 34, T. 18S, R. 38E, N. M. P. M., Hobbs
 Oil Field, Lea County.

DETAILS OF PROPOSED PLAN OF WORK

The present production of this well is 87 barrels per day and no water.
 Formation to be treated: 4090 to 4185'.
 Inner string of pipe is cemented at: 3974'.
 Well will be treated with 1000 gallons acid.
 Purpose of treatment: Reduce the gas/oil ratio.

Permission to treat this well is desired as the offset wells have either been treated or are about to be treated and have, or will, increased their daily allowance and potential. It is feared that Skelly Oil Company will suffer drainage unless their potential and allowance is likewise increased.
