Re: S. P. Johnson SWD Well #1-L, 5-18-39

Gentlemen:

According to the information that we have, the above referenced well is injecting water into an unauthorized zone.

Division Order R-3519 authorizes injection into an area approximately 5300 feet to 5854 feet with the packer to be set at approximately 5300 feet. You show the packer currently set at 4400 feet.

It will be necessary to discontinue use of this well until you comply with the original order, or you may get an amendment to the order allowing for the difference in the injection interval.

Please advise me of your plans for this well.

Very truly yours

OIL CONSERVATION DIVISION
