ATTENTION: Mr. A. L. Porter, Jr.

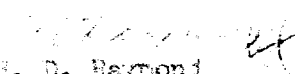

Re: Application for Dual Tubingless
Completion, State of New Mexico
"CR" Well No. 2, Lea County, New
Mexico.

Gentlemen:

Attached is TEXACO's application for dual tubingless completion for the State of New Mexico "CR" Well No. 2, located 1989 feet from the east line and 1980 feet from the north line, Unit C, Section 32, T-19-S, R-32-E, Lea County, New Mexico. TEXACO plans to complete this well as a dual tubingless completion in the Lusk (Strawn-Oil and Morrow-Gas) Pools. It is anticipated that all zones will flow initially. Approval has been granted previously by the New Mexico Oil Conservation Commission for these zones in Southern New Mexico Oil Corporation, formerly El Paso Natural Gas, Southern California-Federal Well No. 1 by Order MC-1241.

Also attached is a copy of the plat showing the area immediately surrounding TEXACO's State of New Mexico "CR" Lease and a diagrammatic sketch of the proposed dual tubingless completion. It is respectfully requested that TEXACO Inc. be granted administrative approval for this application as provided for under Rule 112-A.

Yours very truly,

H. D. Raymond
Assistant District Superintendent
