(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

In accordance with our letter dated March 2, 1999 to the Bureau of Land Management Hobbs Field Office, and with BLMs Mr. Vince Balderaz's verbal approval, Federal CST Well No. 1 was placed back on production on May 10, 1999 after completing replacement and repair of surface production facilities.

During the 24-hour period ending Monday, May 15, 1999, the well produced 5.50 barrels of oil with a trace of water and casing head gas volumes too small to measure. Oil produced from this well will be sold to Navajo Refining Company.
