(Company or Operator)

Well No. in (Unit)

1/4 (40-acre subdivision) 1/4 of Sec. 16, T. 20-S, R. 35-W, NMPM, West Texas Pool

County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

It is hereby requested that approval for a change in the proposed casing program of the described well be changed from 9-5/8" surface casing to 8-5/8" surface casing. The hole size for the 8-5/8" surface casing would be reduced to 10-1/2". There would be no other appreciable changes made in the drilling program and adequate protection of the salt taken. This change in casing program is being made because it has been decided to use cable tools in the drilling of this test and it may become necessary to run a 10-3/4" core string at the surface. The drilling contractor is to be Collier Drilling Company, Artesia, New Mexico.

Mr. E. F. Engbrecht
Carlsbad, New Mexico

Dear Mr. Engbrecht:

We have received your registered letter informing us of your intention to locate Atlantic State No. 1, 1980' FNL, 1980' FWL, Sec. 16, T20S, R33E, Lea County, New Mexico. This section is held under potash lease M-651 by the U.S. Borax & Chemical Corporation and is also within the boundary of the Oil Shale area as defined by the Oil Conservation Commission Order R111-A.

We have discussed the casing program for this well with representatives of the U.S. Borax & Chemical Corporation and understand that they have authorized the program. International will therefore offer no objection to the well providing that your drilling and casing program meets with the provisions of R111-A and appropriate federal regulations.

Very truly yours,

R. W. Hougland
 Chief Geologist
