17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1703.

2-18-75:

We will perforate a new zone from 3800 to 3700 in the Grayburg section. I will set a RTPB at 3805 and acidize the new zone under a packer set at 3550. If I get a show of gas or oil in this zone I will do a KCL frac job, and hang back on production. All work will be performed with a pulling unit and a blow out preventor will be installed.

The above remedial work will be performed as soon as a pulling unit becomes available.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
