It is planned to use the following casing pattern: 10 3/4" surface string to be set at approximately 250' and cemented with 250 sacks cement to surface; 7 5/8" to be set at approximately 3,000° and cemented with 1550 sacks; 5 1/2" to be set at approximately 9100' and cemented with 450 sacks.

Approval to produce this well upon completion is also requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
