INSTRUCTIONS

This form is to be filled out and **DUPLICATE** with the District Office of the Oil Conservation Commission for each producing well unit from which oil or gas is produced. One copy of this form shall be filed for each transporter authorized to transport oil or gas from the well. If a duplicate certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the District Office and two copies retained by the Oil Conservation Commission.

A transporter authorized to move oil or gas in charge of operating ownership and such change in ownership as may be necessary to transport a temporary change in the transporter is authorized to transport oil or gas in production for one production period. The transporter is authorized to transport oil or gas in production in the Oil Conservation Commission District Office and is authorized by certificate on file with the Commission. The transporter is authorized to move oil or gas to be moved by the transporter to the well or to the well from the unit and the name of such temporary transporter shall be furnished to the transporter. The transporter shall also be furnished such temporary transporter. The transporter shall not move any more oil or gas than the estimated production of the well.

The transporter is authorized to transport and approved by the Oil Conservation Commission shall be authorized for a time connection and authorization to transport oil or gas in production from the well and shall remain in full force and effect until

- (a) The transporter is authorized to
- (b) The transporter is authorized to
- (c) The transporter is authorized to

If any of the above conditions of the Oil Conservation Commission have not been complied with, the transporter shall explain fully under the heading "REMARKS" the reason for the same.

In all cases where a transporter is filed to cover a change in operating ownership or a change in ownership, the transporter shall show under "REMARKS" the name of the transporter and the transporter previously authorized to transport oil or gas.

A transporter is authorized to move oil or gas from each producing well as designated by the Oil Conservation Commission.
