Attention of Mr. Eric F. Engbrecht

Gentlemen:

Please refer to your letter dated January 23, 1961, in regard to the packer leakage test for our Hawk B-8 Well No. 3, located in Unit O, Section 8, T-21S, R-37E.

The Drinkard formation in this well was abandoned after attempts to dual complete failed. The well is now a single producer in the Eumont Gas Pool. Evidently your records do not contain this information and if you will advise wherein we have failed to file proper forms, we shall be happy to correct this situation as soon as possible.

Yours very truly,
