Gentlemen:

Re: Order DC-215 - State
10 Well No. 2.

Revised order No. DC-215 permitted dual completion of our State 10 No. 2 located in Section 10 - T21S - R37E as an oil-oil dual. While performing the proposed work in the well, the original packer was damaged and it became necessary to install another production packer.

In compliance with the order, we submit herewith revised schematic diagram showing this change.

Yours very truly,

VTL-pr
