To To Whom It May Concern

Re: Hondo Drlg Co. Hawk B-10 Fed #1-H 10-21-37

It has been called to my attention that the above-referenced well is completed in the Drinkard formation and lies within the boundaries of the Shell Western Northeast Drinkard Unit which produces from the Blinebry/Tubb/Drinkard.

Bill Powers with Shell was contacted concerning this well and he advised he would contact their Unit Dept. in Houston about the problem.

This well has continued to produce from the Drinkard since the unit was formed, but in minimal amounts.

Eric Meyer with Shell in Houston called and advised they were checking into the correct ownership of the well. It has been farmed out to Hondo Drlg. As soon as they have verified the ownership they will contact Honto Drlg.

Eric's phone # 713-870-3299.

Very truly yours,
