The elevation of the derrick	floor above sea leve DETAII	S OF WORK	(State or Territory)  oposed casings; indicate mudding jobs, cement-
The elevation of the derrick	floor above sea level  DETAIL	S OF WORK s, weights, and lengths of proper important proposed wor	oposed casings; indicate mudding jobs, cement- k)
The elevation of the derrick	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK s, weights, and lengths of proper important proposed wor	oposed casings; indicate mudding jobs, cement-k)
The elevation of the derrick	floor above sea level DETAII	S OF WORK s, weights, and lengths of proher important proposed work	oposed casings; indicate mudding jobs, cement- k) : : : : : : : : : : : : : : : : : : :
The elevation of the derrick	floor above sea level DETAII	S OF WORK s, weights, and lengths of proher important proposed work	oposed casings; indicate mudding jobs, cement- k) : : : : : : : : : : : : : : : : : : :
The elevation of the derrick	floor above sea level DETAII	S OF WORK s, weights, and lengths of proher important proposed work	oposed casings; indicate mudding jobs, cement- k) : : : : : : : : : : : : : : : : : : :
The elevation of the derrick	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of properties important proposed work  Of the control of the	oposed casings; indicate mudding jobs, cement- k)  - to selve all milks above i compile independent all selves accompile independent
The elevation of the derrick	DETAIl objective sands; show size ing points, and all o	S OF WORK  s, weights, and lengths of properties important proposed work  Of the Barrier of the Samuel Control	oposed casings; indicate mudding jobs, comentally and the second
The elevation of the derrick	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of properties important proposed work  O	oposed casings; indicate mudding jobs, cement- k)  1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1
The elevation of the derrick (State names of and expected depths to	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of property of the important proposed work  Of the Barbara and the second secon	oposed casings; indicate mudding jobs, cementally  of scand of the miles accorded from the common state of
The elevation of the derrick (State names of and expected depths to	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of property of the important proposed work  Of the Barbara and the second secon	oposed casings; indicate mudding jobs, cementally  of scand of the miles accorded from the common state of
The elevation of the derrick (State names of and expected depths to	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of property of the important proposed work  Of the Barbara and the second secon	oposed casings; indicate mudding jobs, cementally  of scand of the miles accorded from the common state of
The elevation of the derrick  (State names of and expected depths to	floor above sea level DETAII objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of properties of the important proposed work  O De least the control of the	oposed casings; indicate mudding jobs, comentally and the second
The elevation of the derrick (State names of and expected depths to	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of proher important proposed work  Of the lengths of the lengths of proher important proposed work  Of the lengths of the lengths of proher important proposed work  Of the lengths o	oposed casings; indicate mudding jobs, cement- b)  1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1
The elevation of the derrick  (State names of and expected depths to	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of properties of the proposed work  Of the latest the proposed work  Of the latest the properties of th	oposed casings; indicate mudding jobs, comentally and the second
The elevation of the derrick  (State names of and expected depths to	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of properties of the proposed work  Of the latest the proposed work  Of the latest the properties of th	oposed casings; indicate mudding jobs, comentally and the second
The elevation of the derrick  (State names of and expected depths to	floor above sea level DETAII  objective sands; show size ing points, and all of	S OF WORK  s, weights, and lengths of properties of the proposed work  Of the latest the proposed work  Of the latest the properties of th	oposed casings; indicate mudding jobs, comentally and the second
The elevation of the derrick  (State names of and expected depths to	floor above sea level DETAII  objective sands; show size ing points, and all of the sand size ing points.	S OF WORK  s, weights, and lengths of properties of proper	oposed casings; indicate mudding jobs, comentally and the second
The elevation of the derrick  (State names of and expected depths to	floor above sea level DETAII  objective sands; show size ing points, and all of the sand size ing points.	S OF WORK  s, weights, and lengths of properties of proper	oposed casings; indicate mudding jobs, cement- b)  1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1
The elevation of the derrick  (State names of and expected depths to	DETAIl objective sands; show size ing points, and all o	S OF WORK  s, weights, and lengths of property of the important proposed work  Of the important proposed work  of the important proposed work  in writing by the Geological	oposed casings; indicate mudding jobs, comentally and the second
The elevation of the derrick  (State names of and expected depths to	DETAIl objective sands; show size ing points, and all o	S OF WORK  s, weights, and lengths of property of the important proposed work  O Dail has a second of the important proposed work  in writing by the Geological	oposed casings; indicate mudding jobs, cementally and the second
The elevation of the derrick  (State names of and expected depths to  I understand that this plan of w  Company	DETAIl objective sands; show size ing points, and all o	S OF WORK  s, weights, and lengths of properties of proper	oposed casings; indicate mudding jobs, comentally and the second
