RE: J.F. JANDA NCT J #2, UNIT P-4-23-36

Gentlemen:

The above referenced plugged well site has recently been inspected by an Oil Conservation Division Representative in an attempt to release the location.

However, before this can be done, the following must be completed.

1. Remove flowline from location.
2. Remove 1" and 2" junk pipe from location.
3. Remove all junk iron from edges of location.
4. Correct dry hole marker to state J.F. Janda NCT J for lease name, (currently states J.F. Tanda).

When the above has been done, sign this letter below, and return it to the address stated above.

Sincerely,

CHRIS WILLIAMS
District I Supervisor
