

New Mexico Oil Conservation Commission
March 2, 1956
Page 2

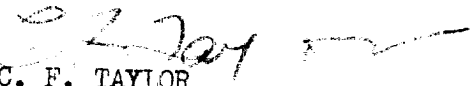

(f) That the manner and method of the proposed dual completion is mechanically feasible and practical.

(g) That by copy of this letter of application, all offset operators are notified of the proposed dual completion.

Therefore, Gulf Oil Corporation requests that the Oil Conservation Commission grant permission to the applicant to dually complete the subject well as proposed in this application.

I hereby certify that the information given above is true and complete to the best of my knowledge.

Respectfully submitted,

C. F. TAYLOR
Area Superintendent of Production

JLM/jg

The first part of the report deals with the general situation of the country. It is found that the population is increasing rapidly, and that the land is being cultivated more extensively than in former years. The government has taken steps to improve the administration of the country, and to provide for the needs of the people. The report also mentions the progress of the various departments, and the state of the treasury.

The second part of the report deals with the details of the various departments. It is found that the revenue has increased, and that the expenditure has been kept within the limits of the income. The report also mentions the progress of the various departments, and the state of the treasury.

The third part of the report deals with the details of the various departments. It is found that the revenue has increased, and that the expenditure has been kept within the limits of the income. The report also mentions the progress of the various departments, and the state of the treasury.

The fourth part of the report deals with the details of the various departments. It is found that the revenue has increased, and that the expenditure has been kept within the limits of the income. The report also mentions the progress of the various departments, and the state of the treasury.
