V. PRODUCTION / BRINE STORAGE INFORMATION

Method of production (describe fully) Not in use

Was well used previously for some purpose other than brine supply, potash dissolution, or LPG storage. If so use note to explain. LPG Storage

Use of brine —

Source of injection water (be specific) —

Attach detailed production history (include dates of production, amount of water injected, injection rates, amount of brine produced, production rates, method of gaging injection/production rates)*

Note: If the cavity was used for LPG storage include volumes of product injected and withdrawn as well as a summary of the maximum and minimum pressures during injection, storage and withdrawal.

Chemical analyses of injection water (attach)*

Note : Chemical analyses should include sampling point and method, pH, temperature, method of analysis, name and location of laboratory, etc.

Chemical analyses of water produced (attach)*

Well abandoned
