U. S. GEOLOGICAL SURVEY
ARTESIA, NEW MEXICO

This plan is submitted with the Application for Permit to Drill the above described well. The purpose of the plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operation so that a complete appraisal can be made of the environmental effects associated with the operation.

1. Existing Roads:

- A. Exhibit "A" is a portion of a map with highways showing the location of the proposed well as staked. 5.7 miles west of Eunice, New Mexico, 5.4 miles south on El Paso Natural Gas road, .2 miles west on existing lease road, .2 miles north, .3 miles west, proposed well site on left.
- B. Exhibit "B" is a plat showing all existing roads within a one mile radius of the wellsite and the planned access road.

2. Planned Access Roads:

- A. New road required will be 12' wide and 165' long. This new road is labeled on Exhibit "B" color coded red. The proposed new road has been staked from the beginning to the wellsite.

B. Turnouts: none

C. Culverts: none

D. Cuts & Fills:

E. Gates, Cattleguards: none

3. Location of Existing wells:

- A. Existing wells within a one mile radius are shown on Exhibit "B".

4. Location of Existing and/or Proposed Facilities:

- A. Location of the proposed surface production equipment if well is completed as a producer is shown on Exhibit "D". Any production equipment installed will be within existing well pad boundaries.
