Re: Request and Notice for:
1. Simultaneous Dedication
2. Infill Drilling
Otis L. Jones Lease
SE/4 Section 34
T-22-S, R-36-E
Lea County, New Mexico

Gentlemen:

We are currently in the process of filing a C-101 and C-102 with the New Mexico Oil Conservation Division's district office in Hobbs for permission to drill a second Jalmat (Gas) well as an infill well to the same producing interval on an existing 160-acre proration unit comprised of the SE/4 Section 34, T-22-S, R-36-E, Lea County, New Mexico. The subject proration unit is currently dedicated to our Otis L. Jones Well No. 1 located in P-34-22-36. I hereby file for administrative approval to simultaneously dedicate the 160-acre proration unit, consisting of the SE/4 Section 34 to both our existing well (Otis L. Jones No. 1 located in P-34-22-36) and our newly proposed well (Otis L. Jones No. 2 located in J-34-22-36).

Furthermore, if the proposed well is completed as a commercial producer, and in compliance with the Natural Gas Policy Act of 1978, an application will also be submitted to the New Mexico Oil Conservation Division to obtain administrative approval for the well as a Section 103 infill well located on a previously existing proration unit.

Three copies of a plat showing the location of the original well on the existing 160-acre proration unit plus the location of the proposed well are enclosed.

Copies of this plat and application have also been sent to all offsetting parties owning shallow Jalmat dry gas rights. The following is a list of the offset Jalmat owners:
