

July 23, 1958

Mr. L. F. Montgomery
Production Manager
Oil Conservation Commission
P. O. Box 2045
Albuquerque, New Mexico

Dear Sir:

In compliance with your request in your letter dated July 10, 1958, this will advise that El Paso Natural Gas Company has disconnected from the following Jaland gas wells:

	Date of Disconnection
Continental Oil Company	
Lynn 3-26 No. 1-A 326-T23-234	July 21, 1958
Lynn 3-26 No. 3-C 326-T23-234	July 21, 1958
Lynn 3-26 No. 4-M 326-T23-234	July 21, 1958

Although we propose to leave our pipeline and metering facilities in place the wells will remain disconnected until further notice from the Commission.

Yours very truly,

EL PASO NATURAL GAS COMPANY

J. W. Baulch, Jr.
Gas Production Engineer

JWB,Jr:bjs

cc: Mr. A. L. Porter, Jr., Director
O.G.C., Santa Fe, New Mexico
Mr. E. A. Uta, Gas Engineer
O.G.C., Santa Fe, New Mexico
Mr. J. R. Parker (X)
Continental Oil Company, Bernalillo, New Mexico
Mr. F. Norman Woodruff
El Paso Natural Gas Company, El Paso, Texas

1. Introduction

The purpose of this study is to investigate the effects of the proposed system on the performance of the system. The study is divided into two main parts: a theoretical analysis and an experimental evaluation.

The theoretical analysis is divided into two main parts: a theoretical analysis and an experimental evaluation.

The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation. The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation.

The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation. The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation.

The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation. The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation.

The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation.

The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation.

The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation.

The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation. The experimental evaluation is divided into two main parts: a theoretical analysis and an experimental evaluation.
