17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

With reference to memorandum of September 13, 1974, the subject well was shut in when purchased on December 31, 1971 reportedly due to uneconomic operation. In view of present prices for stripper crude, it is believed that the well will now be economic. As soon as tubular goods and surface equipment can be secured, the well will be placed on operation. Due to the present tight situation on tubular goods and equipment, it is anticipated that we will not be able to place this well on production until the early part of 1975.

Expires 10/1/75

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
