P. O. BOX 1667
HOBBS, NEW MEXICO

August 20, 1951.

Mr. Roy Yarbrough,
Oil And Gas Inspector,
Oil Conservation Commission,
P. O. Box 1545,
Hobbs, New Mexico.

Re: FEDERAL WELL FORMS — To be filed with the Oil
Conservation Commission.

Dear Mr. Yarbrough:

Enclosed you will find two (2) copies each of "Sundry Notices and Reports on Wells" as it applies to the "Notice of Intention to Drill" and to the "Well Completion" and a log of each well. These cover all of those reports filed by Gulf Oil Corporation, Hobbs Area, with the U.S.G.S. prior to January 1, 1950 (LaMunyon Numbers 1 through 12 and M. K. Stewart Number 1). On July 20, 1951 we mailed you copies of these reports filed with the U.S.G.S. since January 1, 1950 (LaMunyon Numbers 13 through 18). Upon receipt of the enclosed reports you will have copies of all reports on all federal wells we are operating.

In the future you will receive two copies of these reports at the time they are filed with the U.S.G.S.

Very truly yours,

GULF OIL CORPORATION,

A handwritten signature in cursive script, appearing to read "Chas Taylor".

Chas. Taylor,
Area Prod. Supt.

RWS,
