DETAILS OF WORK

(State names of and reported depths to objective sands; show down, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work.)

In connection with the abandonment of the above well, the work was completed as follows:

Total Depth 3254'.

A cement plug, 50' in length, extending from below the 7" casing up into the casing.

A cement plug, 50' in length, extending from above the 7" casing stub down into the stub.

A cement plug, 50' in length, extending from below the 8 1/4" casing up into the casing.

A regulation marker cemented in a plug at the surface.

Intervals between cement plugs were filled with heavy mud.

This work was completed October 29, 1948.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
