Gentlemen:

T. F. Hodge respectfully requests that the Oil Conservation Commission grant an exception to the "No-Flare Order" insofar as it pertains to the T. F. Hodge Pubco State Well No. 3 located 2081.46' from the North line and 1984.47' from the East line of Section 32, T-26-S, R-37-E, Jalmat Pool. The well was completed on April 28, 1958 and has a gas-oil ratio of 9,749:1. The approximate volume of gas to be flared is 178.7 MCFPD.

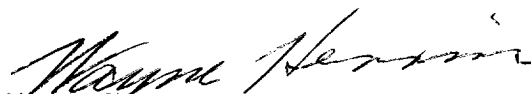

This lease consists of the NE/4 NE/4 and S/2 NE/4 of Section 32, T-26-S, R-37-E. There are two other wells completed on the lease, the Pubco State Well No. 1 located 1864.5' from the North line and 661.49' from the East line of Section 32.

We are presently negotiating with Cabot Carbon Co. for the sale of this gas and expect to have a connection in the near future.

In view of the foregoing facts, we respectfully request that an exception to the "No-Flare Order" be granted the T. F. Hodge Pubco State Well No. 3.

Yours very truly,

T. F. Hodge
