RE: OCC Order No. SWD-138

Dear Sir:

Pursuant to our telephone conversation this hour, please be advised and assured that Truckers Water Company does agree to squeeze all perforations above the San Andres formation as are indicated to be perforated by Millard Deck, as per attachment.

The perforations will be squeezed to the satisfaction of the Oil Conservation Commission.

The pits that you have requested of Gulf Oil Corporation to be filled, will be used in recompletion of the well and will be filled after such re-completion.

Thanking you in advance for your advise and consideration.

Yours truly,

TRUCKERS WATER COMPANY, INC.
