13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Continued TA status is requested. We commissioned a reserves/engineering study, which recommends a redevelopment program capable of yielding well over one million barrels of oil plus associated gas. We lack funds to do this, and are searching for a customer or funding partner to do it. The collapse of oil prices destroyed our former plans, and plugging now would further burden our search.
