## LEONARD BROTHERS WELL 25, 27, 28

## SPECIAL BLM STIPULATIONS

- 1. The location of Well #28 has moved from 660' FNL and 660' FEL Section 14, Township 26S, Range 37E, to 660' FNL and 330' FEL, Section 14, Township 26S, Range 37E.
- 2. No dirt work will be commenced without first consulting Mr. Nathan Botsford, Archeologist at the BLM in Roswell.
- 3. All such dirt work will be approved in advance by the BLM in Roswell.
- 4. All cultural resource artifacts which were found on the locations have been mapped and collected by an archeologist from the Salmon Ruins in Aztec, New Mexico.
- 5. All flowlines, as usual procedure, will be installed on the surface and will not be buried.
- 6. Drill pad locations will be constructed on top of the sand and will be surfaced with caliche as specified in the 13-Point Plan, Point 6C. Excess sand on locations will be pushed out from the locations and will be used to cover the areas where cultural resource artifacts have been found.
